Albert E. Whiteman Acting Area Manager DOE,RFAO

SUBMISSION OF THE RCRA PART B PERMIT APPLICATIONS

This information regarding the revised Part A and Part B Permit applications is for the attention of P. G. Currier, J. B. Whitsett and James G. Stearns. It is also the DOE,RFAO permanent record indicating submittal of the appropriate permit applications to the State and United States Environmental Protection Agency (EPA).

Attached are the official copies acknowledging receipt of the RCRA Permit applications by the appropriate regulatory authorities. Signed copies of the revised Part A and Part B application for hazardous waste activities were provided to the State of Colorado and the Region VIII EPA on November 1, 1985. Silver recovery operations will be permitted and regulated by the EPA until such time that the State is granted authority for implementation of the Hazardous and Solid Waste Amendments of 1984. All other hazardous waste activities are regulated by the State.

Following DOE's directive, a signed copy of the revised Part A Permit application and Part B Permit application for radioactive mixed wastes was delivered to the Region VIII EPA on November 8, 1985.

In the spirit of cooperation, an unsigned copy of the Radioactive Mixed Waste Permit application was provided to the State so that they would have complete information regarding Rocky Flats Plant radioactive mixed waste activities.
